ReactVite   React   React Router

Brainwave

- Brainwave could function as a personal assistant, helping users manage their tasks, schedule, and reminders. It could intelligently prioritize tasks based on importance and deadlines, helping users stay organized and focused.
- AI could be employed in Brainwave to enhance security measures, such as identifying and mitigating potential threats, detecting suspicious activities, and ensuring compliance with data privacy regulations.

React.js   Api   ui/ux

Netflix Clone

- In this project, I developed a Netflix clone, a web application inspired by the popular streaming service, using React.js for the front end, Node.js for the back end, and MongoDB for database storage. The goal was to create a platform where users could browse, search, and watch a catalog of movies and TV shows, simulating the user experience of the actual Netflix platform.

SKILLS

- Proficient in oops

Languages
- HTML
- Css
- JavaScript
- Wordpress
- Java

Frameworks and Libraries
- React,Redux,Tailwind,Bootstrap
- Node.js, Express.js,Postman, Middleware,Figma

Databases
- MongoDB, MySQL

Non Technical
- Communication skills, Strong problem solving skills, Time Management

TRAINING

Full Stack Web Developer
Coding Ninjas

📅 Jan 2023 - Feb 2024

EDUCATION

MCA Master In Computer Application
Biju Patnaik University Of Technology

📅 2021 - 2023   📍 Bhubaneswar, India

- CGPA: 7.25

BCA Bachelor In Computer Application
Berhampur University

📅 2014   📍 Berhampur, India

- CGPA: 7.5
